UEFA CHAMPIONS LEAGUE

INSIDE THE BRUGGE MODEL
A SMALL CLUB AMONG EUROPE'S RICH

Six points from three games. The club runs on young players, a modest wage bill and little debt: less than half the median squad value, yet the cheapest points of any side with six or more.

	Squad value	Wage bill	Net debt	Squad cost ratio	Cost per CL point	Average age, weighted	Squad value under 23	Net debt to squad value
Club Brugge	€264.4M	€28.7M	€46M	58.7 %	€9.2M	23.0	68.6 %	0.17
UCL median	€574.3M	€91.5M	€370M	73.4 %	€41.1M	25.1	25.4 %	0.62
Rank	28th of 36	Lowest with 6 or more points	5th lightest	Below UEFA limit	1st with 6 or more points	1st of 33	1st of 33	5th best

Every Champions League point costs Brugge under a quarter of what it costs the median club.
