

THE TALENT MAP OF THE CHAMPIONS LEAGUE

Each bubble is a nationality. Across, the players it puts into the 2026/27 league phase. Up, the average value of one of them. The size of the bubble is the value of the whole pool.

Spain supplies more players than any other nation, 112, for €3,063.4M of squad value. Argentina reaches €937.4M with only 27 players, an average of €34.7M each, while Norway needs 52 players to reach €516.6M. Together the ten pools account for 67% of all squad value in the competition.
